

FACES OF WASHINGTON 2016

THE FACE OF **BODY CONTOURING** COOLSCULPTING®

Reps B. Sundin, MD | MBody | Virginia Institute of Plastic Surgery

1500 Cornerside Blvd, Ste 400, Tysons Corner, VA | 703.740.8333 | www.mymodernbody.com

Drs. Burton and Reps Sundin, co-founders of the Virginia Institute of Plastic Surgery and MBody: Modern Body Contouring and Laser Center, have specialized in CoolSculpting® for over five years and are experts in their field. The doctors have performed over 5,000 CoolSculpting® treatments and were one of the first in Virginia to use CoolSculpting®. The practice is also one of the first to offer the new Coolmini™ treatment for reduction of fat on the neck.

Dr. Burton or Reps Sundin personally

consults with each patient and designs a custom CoolSculpting® treatment plan. This cutting-edge technology is an ideal treatment for individuals who are seeking to eliminate excess fatty deposits that are diet and exercise resistant. CoolSculpting® is totally non-surgical and requires no down time. CoolSculpting® can be used to treat areas on the abdomen, flanks, outer thighs, inner thighs, arms, and neck.

For more information, visit their websites at mbodydc.com and mymodernbody.com.
