

## THE FACE OF **FACELIFTS**

### **Dr. Talal Munasifi - Advanced Plastic Surgery Center**

N. George Mason Dr., Arlington, VA, 703.841.0399 | Lewinsville Rd., McLean, VA

**A** facelift can make a patient look 10 to 15 years younger and last 11-13 years. Dr. Talal Munasifi has performed more than 3,000 facelift surgeries and is renowned as an expert in the procedure. He believes the key to each surgery is individualization. "Not everyone has the same needs in facial rejuvenation; therefore, each surgery is different in technique." Dr. Munasifi served as Chairman and President of the medical staff at Virginia Hospital Center — one of America's Top 100 Hospitals. He founded the Advanced Plastic

Surgery Center and is a founding member of Capital Plastic Surgeons. He and his team offer an array of other state-of-the-art surgical and non-surgical treatments. In all procedures, Dr. Munasifi has an uncompromising dedication to vibrant, youthful, natural looking results. "I will always give my honest and professional opinion about what you really need," says the surgeon who has been honored and accredited by *Washingtonian*, Castle Connolly, American College of Surgeons, Medical Society of Virginia, and Virginia Society of Plastic Surgeons.
