

THE FACE OF **NECKLIFTS**

Sheilah A. Lynch, MD

5530 Wisonsin Avenue, Suite 1440, Chevy Chase, MD 20815 | lynchplasticsurgery.com

Men and women of varying ages are often frustrated by the changes to the contour and appearance of their neck. Changes with age may include loose skin and muscle, and sometimes excess fat, which is often genetic. Dr. Lynch offers procedures which can restore and enhance the neckline. These may range from minimal in-office treatments with no down time, to more complete surgical procedures. Dr. Lynch is a Board Certified Plastic surgeon practicing in Chevy Chase, Maryland. She has over 15 years experience

in private practice devoted solely to cosmetic plastic surgery. After completing her training in Plastic Surgery at Brown University, Dr. Lynch completed specialty fellowship training in Cosmetic and Breast Surgery at Georgetown University where she is presently a Clinical Instructor. Her particular interests are in facial rejuvenation, including minimal incision facelifts, eyelid surgery and neck rejuvenation; breast surgery, including breast augmentation, reduction and lifts; and body contouring, including liposuction, tummy tucks and arm lifts.
