

FACES OF WASHINGTON 2016

THE FACE OF **BREAST ENHANCEMENT**

Mark L. Venturi, MD, FACS

7601 Lewinsville Road, #400, McLean, VA 22102 | 703.287.8277 | www.venturimd.com

Dr. Venturi is widely regarded as the plastic surgeon that other surgeons request to take on some of the most difficult and important cases. The leading board certified plastic surgeon in our Nation's Capital for both cosmetic and reconstructive breast surgery, Dr. Venturi is entrusted with the delicate mission of restoring a natural, aesthetically pleasing figure to active cancer patients, survivors, and those genetically predisposed to breast cancer. Dr. Venturi offers the latest techniques in microvascular and

implant-based breast reconstruction, including DIEP flaps, oncoplasty and prepectoral technique. Whether a complicated radiated breast reconstruction or a cosmetic breast augmentation, Dr. Venturi excels in surgical enhancement of the breast. He is held in high esteem for his warm bedside manner and diligence in developing a personalized approach for each of his patients. From breast lifts to augmentations and reductions, his unique ability to perfect the finest of details in the operating room directly reflects into the mirror for his patients.
